

February 2009

Publication on transformation of the construction industry

The Construction Industry Development Board (cidb) a Schedule 3A public entity - was established by an Act of Parliament (Act 38 of 2000), to promote a regulatory and developmental framework that builds:

- The construction delivery capability for South Africa's social and economic growth.
- A proudly South African construction industry that delivers to globally competitive standards.

Accordingly, the cidb applauded and embraced the Construction Sector Charter (Section 12) which was gazetted in February 2007, as it portrays the empowerment aspirations which are in line with the mandate of the Board. We look forward to the gazetting of the Section 9 sector codes as an important milestone in the transformation of the construction industry.

Definitive Africa Media, a publishing house supporting Transformation, is compiling a special publication on Transformation in the Construction industry. The publication aims at highlighting the strides, achievements, challenges, and the future of the industry with regards to transformation.

The cidb supports the Definitive Africa Media initiative to compile the Transformation in Construction BEE Handbook and invites construction stakeholders to be part of this exciting venture.

Best regards,

Ronnie Khoza
CEO
